Professional Summary

Motivated and detail-oriented Computer Science graduate with expertise in web development, software testing, and networking. Experienced in building responsive front-end applications, executing manual test cases, and troubleshooting technical issues. Skilled in the MERN stack, Python, C, manual and automation testing tools including Jira and Postman, and QA processes. Seeking challenging opportunities in technology-driven environments to apply and expand both development and QA/testing skills.

Technical Skills

- **Programming**: Python, C, JavaScript
- **Web Development**: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, MongoDB, WordPress
- **Testing & QA**: Manual Testing, Test Case Design, Bug Tracking, Software Testing
- **Tools & Platforms**: Git, GitHub, Jira, Postman, Figma
- **Databases**: MySQL, MongoDB
- **Other Skills**: MS Excel, Troubleshooting, UI/UX, Project Coordination
- **Soft Skills**: Communication, Team Player, Problem Solving, Innovative, Critical Thinking

Experience

- **Ryzenforge** — Kochi, India
  Associate Web Developer Intern — *December 2025 – August 2026*
  - **UI/UX Design**: Designed UI/UX layouts and website prototypes using Figma.
  - **Web Development**: Developed and maintained responsive websites using modern web technologies.
  - **Hosting & Deployment**: Hosted and deployed live websites on production servers and hosting platforms.
  - **WordPress**: Worked on WordPress website customization and management.
  - **Client Coordination**: Coordinated with clients and team members for project updates, feedback, and delivery.
  - **Project Management**: Assisted in project management, task tracking, and client communication.
- **Techmindz** — Kochi, India
  MERN Stack Intern — *June 2025 – December 2025*
  - **MERN Development**: Built MERN stack applications focusing on React components, API integration, and MongoDB data handling.
  - **API Testing**: Performed manual testing and used Postman to validate REST API endpoints and responses.
  - **Project Exposure**: Gained real-world project exposure with a focus on scalable and efficient solutions.
  - **Collaboration**: Collaborated in an agile environment to build and debug applications.
- **Internpe** — India
  Web Development Intern — *June 2024 – July 2024*
  - **Web Development**: Developed responsive web pages using HTML5, CSS3, JavaScript, and Bootstrap.
  - **Compatibility**: Ensured cross-browser compatibility and mobile responsiveness.
- **STEM Robotics** — Trivandrum, India
  AI & Robotics Intern — *May 2023*
  - **Python & Arduino**: Worked on simulations and programming exercises using Python and Arduino IDE.
  - **AI Applications**: Applied AI concepts to simulate robotic decision-making and behavior.

Projects

- **Canteen Ease – A Food Ordering App**
  Food Ordering and Token Management System
  - **Project Overview**: Built a token-based web ordering system to streamline canteen operations.
  - **Technology**: Frontend: HTML, CSS, JavaScript — Backend: PHP, MySQL
  - **Testing**: Performed manual testing of ordering and token workflows to ensure functional accuracy.
  - **Impact**: Reduced average wait time and improved order management efficiency.

Education

- **Adi Shankara Institute of Engineering and Technology** — Kalady, India
  B.Tech – Computer Science — *2021 – 2025*
- **St. Joseph's Boys' HSS** — Kozhikode, India
  Class XII – 93% — *2021*
- **St. Joseph's Boys' HSS** — Kozhikode, India
  Class X – 94% — *2019*

Certifications

- **Infosys Springboard**: Introduction to AI, NLP, Deep Learning, Data Science, and RPA
- **Techmindz**: Internship Completion Certificate
- **Artificial Intelligence Workshop**: Foundation in AI concepts and real-world applications

Leadership & Languages

- **Leadership**: Core Coordinator – College Fest
- **Languages**: English, Malayalam
